

Donna Roy
Executive Director, Information Sharing Environment Office
Office of the CIO, Department of Homeland Security

Ms. Roy joined the DHS in December of 2006 and current serves as the CIO's Executive for Information Sharing. She is actively engaged in helping DHS lay the foundation and building blocks for an information sharing environment and drives DHS technical policy development and coordination with the White House National Security Staff and the Program Manager for the Information Sharing Environment. As the CIO's executive for information sharing, she is focused on removing technology barriers associated with the delivery of the information sharing environment. Under her leadership are the oversight and operation of the program management offices for the Homeland Security Information Network (HSIN), the National Information Exchange Model (NIEM) and the Identity Credential and Access Management (ICAM).

In 2008, Donna received the DHS Secretary's award for Leadership Excellence for exemplary dedication and leadership in advancing the data management practices in order to institutionalize information sharing. She has been selected for 2009's Federal Computer Week's Federal 100 award recipient for advancing data management and information sharing. The NIEM program, under her leadership, has been the recipient of the ACT-IAC Intergovernmental Solutions Award for 2009. Ms Roy was the recipient of the Federal CIO Councils Leadership Excellence Award for 2010. She was selected again in 2012 for Federal Computer Week's Federal 100 award for leadership in information sharing. The HSIN program was selected in 2013 by Government Computer News for an IT Achievement award.
